EDUCATION

COER University, Roorkee, Haridwar

2021-25

Bachelor of Technology, Computer Science & Engineering

WORK EXPERIENCE

Machine Learning Intern | MTA-INDIA | Remote

June'22 – Aug'22

- Interned at MTA India, mastering **Python, Pandas**, and **NumPy** for **data analysis** and **preprocessing**.
- Built a **linear regression model** for predictive analytics, optimising **feature selection** and **model evaluation**.
- Developed a **Car Price Prediction** project, leveraging **user preferences** and **historical data** for accurate pricing.

Java Internship | Net Camp Solution Private Limited | Remote

Jan'24 – Mar'24

- Developed Android apps using Java for logic and XML for UI design.
- Implemented activity lifecycle, intents, and data storage with SQLite/SharedPreferences.
- Built responsive, user-friendly interfaces with ConstraintLayout and RecyclerView.

PROJECTS

Bright Hands | Web Stack, Python, ML, Tensorflow, OpenCV

[Hosted](#)

- Developed an **assistive application** for individuals with **hearing and speech disabilities**, featuring **sign language recognition**, **translation**, and a **dictionary** for **enhanced accessibility**.
- Integrated a **whiteboard application** and **English-to-Hindi (Gujarati) translation**, improving **communication**, **inclusivity**, and **user engagement**.

E-Commerce Order Cancellation Analysis | Python, NumPy, Pandas, Matplotlib

[GitHub](#)

- The primary objective is to reduce the overall order cancellation rate. **Reduced order cancellation rate** by 15% in three months using **data-driven insights** and **machine-learning techniques**.
- **Analysed order process stages**, identifying key issues through **trend analysis** and **data visualisation**.
- Solve problems related to order cancellation through visualization.

Profile Orbit | HTML, CSS, JavaScript, ReactJs, Node.js, Database/ Web Scraping

- A web application is designed to help users consolidate and visualize their coding achievements across multiple competitive programming platforms.
- Competitive programmers and developers who actively participate in coding challenges across multiple platforms and wish to track and analyze their overall progress

SKILLS

- **Programming Languages:** Java, Python, JavaScript, HTML, CSS, SQL
- **Technologies/Libraries:** ReactJS, NodeJS, REST APIs, Redis, Tensorflow, Numpy, Pandas
- **Networking Tools:** ECI NMS, Alcatel NMS, Network Protocols (TCP/IP, ICMP)
- **Developer Tools:** VS Code, PyCharm, IntelliJ IDEA, Postman, **Google Collab**, **Anaconda**, **Git**, **Docker**
- **Technical Skills:** Computer Network, OOPS, DSA & Problem Solving.

ACHIEVEMENTS

- **Level 7 on Code 360** by **Coding Ninjas**, **leaderboard topper** once.
- **Ranked 16th** out of 24,193 students in **Internshala's Student Program 36 Edition**.
- **Solved 400+ DSA problems** on **LeetCode** and **GeeksforGeeks (GFG)**.

CERTIFICATIONS

- **HackVerse'24 Marathon**, 36 hours of coding at **Tula's Institute, Dehradun**.
- **Manthan National Level Hackathon'24**, **COER University**.
- **Postman API Fundamentals Student Expert**.
- **Internshala Student Partner** (Business Development Certificate).
